

**work anywhere
anytime on any device**

Office 365 is the same Office you already know and use every day...and then some. Because Office 365 is powered by the cloud, you can get to your applications and files from virtually anywhere – PC, Mac and tablets – and they're always up to date.

Microsoft has plans to meet the unique needs of businesses of all sizes, from unified productivity and communication needs to advanced control and compliance capabilities.

Work with What You Know

- It's the same Office (Word, PowerPoint, Excel) you know
- Outlook/Exchange ensures you business class email
- Some packages come with a locally installed version of Office, ideal for traveling executives
- SharePoint is now integrated into Office, allowing you to open and save files from SharePoint

Simplifies IT Management

- Access your applications and data from your PC, Mac, tablet and smartphone
- No matter the device, it's the same applications and data

Robust Security & Control

- Its control solution gives administrators visibility, control and management over all users
- Add on Global Relay or other third-party compliance and encryption

Office 365 from CloudJumper

CloudJumper Office 365 packages are almost identical to the Microsoft offerings. With CloudJumper, your licenses come as a monthly subscription without annual commitments.

Includes our personalized support.

At Installation | we support your installation to ensure your migration runs smoothly — Microsoft provides no installation or migration support.

On-Going Support | we will be there for you and your staff via phone to answer access and other questions — Microsoft provides nothing more than online chat and FAQ repository.

With our nWorkSpace solution, we manage your end users' computing, in the cloud. We ensure your email, data and applications are safe, backed up and maintained. And, our control panel keeps you always in control and fully informed.
